2014 ASSET MANAGEMENT CONFERENCE

Dear Conference Attendee:

"*The Leading Edge of Asset Management*" is the theme for the 2014 Asset Management Conference. The Transportation Asset Management Council (TAMC) has chosen this theme to provide each attendee with examples of state of the art technology fused with practical techniques related to the application of asset management at the national, state, and local levels. By doing so, it is our hope that attendees will be empowered by the guidance shared and will explore the potential benefits of applying each practice within their organization.

The TAMC's overall goal for the conference is to put together an agenda filled with topics and speakers to convey this message and make this a positive and worthwhile experience for all involved.

Thank you for your ongoing support and commitment to the TAMC and for implementing the principles of asset management.

Sincerely,

Carmine Palombo, P.E., Chair
Transportation Asset Management Council
