Instructors:

Nick Koszykowski is a software engineer with 20 years of experience in software design, support, and training. He is the principle programmer for MERL and works on all aspects of the software the CTT provides. He joined the CTT in August 1999.

Sean Thorpe has a B.S. degree in Software Engineering from Michigan Technological University. Sean's work has focused on rewriting the Linear Pavement Marking module, Roadsoft Mobile, and providing technical support for Roadsoft users. He has been with the CTT since 2012.

For more information on MERL please visit our website: [here](#).

No-shows and cancellations within three business days of the session will be charged the full registration fee. Substitutions will be accepted. The Center for Technology & Training's (CTT) continuing education policy is available [here](#).
