2015 ASSET MANAGEMENT CONFERENCE

Dear Conference Attendee:

Welcome to our 2015 TAMC Fall Conference! Our conference theme is “Investing in Our Future with Data Driven Decisions.” The science of asset management provides an effective framework for transportation investment planning because it is both focused on the future and based on good data.

We hope and trust that the speakers and topics we have assembled for you will help support your local efforts to advance the practice of asset management here in Michigan.

Thank you for your continued support for and commitment to the asset management community in Michigan. I look forward to seeing you at the conference.

Sincerely,

Roger Safford, P.E.
Chair

Transportation Asset Management Council
