

Roadsoft[®] *is going on the Road!*

*Individualized Technical Assistance Brought **To You** By The CTT!*

Have you been using Roadsoft for a while but you're having **trouble with specific issues?**

Have you already attended Roadsoft training, and now **you're ready to apply what you've learned to your specific data set?**

Having us come to you might be just what you need!

Roadsoft On The Road is a customized on-site session with our experienced staff to work on topics specific to your needs. You provide your Roadsoft data and a list of topics you'd like to cover, and we'll provide the assistance to work through your list in person. This is also an opportunity to invite other organizations to your location to cover general Roadsoft topics.

Work sessions scheduling availability:

October 30-31th and November 2nd morning and afternoon sessions.

November 3rd morning and afternoon sessions for agencies near or above the bridge.

To schedule a Roadsoft Tech Assist session, visit roadsoft.org/OnTheRoad.

We can help you:

- Plan your strategy to request a new millage
- Provide data for presentations or websites
- Import, export, & update data
- Assist with Laptop Data Collector (LDC) or Mobile
