For fulfillment of continuing education requirements, participants must be registered. The Center for Technology & Training's continuing education policy is available [here](#).

Instructors

Luke Peterson has been a principal programmer for Roadsoft with the Center for Technology & Training (CTT) since 1999. He is the lead developer for the Laptop Data Collector (LDC) software and for Roadsoft's Sign, Culvert, Guardrail, Driveway, Sidewalk, and project modules. He is also involved with the development of modules for the Roadsoft Mobile app. Peterson graduated with a Bachelor of Science in Management Information Systems from St. Cloud State University.

Pete Torola, PE, is a research engineer who has been with the CTT since 2014. Prior to joining the CTT team, he had over 13 years of experience working as a resident engineer on county highway construction projects. He is a licensed professional engineer in both Michigan and Illinois. Torola earned a Bachelor of Science in Civil Engineering from Michigan Technological University.
