Introduction to Roadsoft - Just the Basics

Two-day Webinar

Tuesday May 5, 2020: 10 - 11 AM EDT
Thursday May 7, 2020: 10 - 11 AM EDT

This webinar is intended for new users who only need to know the basics of getting Roadsoft up and running, looking up data, doing minor data updates, and running simple reports.

Day 1 Topics will Include:

- Map layers & interface
- Searching
- Viewing and printing module data
- Minor data updates

Day 2 Topics will Include:

- Running sample reports
- Basic filters
- Legends
- Map printing

Instructors

Luke Peterson has been a principal programmer for Roadsoft with the Center for Technology & Training (CTT) since 1999. He is the lead developer for the Laptop Data Collector (LDC) software and for Roadsoft's Sign, Culvert, Guardrail, Driveway, Sidewalk, and project modules. He is also involved with the development of modules for the Roadsoft Mobile app. Peterson graduated with a Bachelor of Science in Management Information Systems from St. Cloud State University.

Lindsey Wells is the User Interface/User Experience Specialist for the CTT, where she began working in 2019. Her main focus is standardizing and improving the user experience for Roadsoft and MERL. Wells graduated from Michigan Technological University with a Bachelor of Science in Scientific and Technical Communication and has a minor in writing.
