MDOT Local Agency Program: Threatened & Endangered Species

WEBINAR: Thursday, May 27, 2021 — 9:00 AM - 10:30 AM ET

Michigan's Local Technical Assistance Program

Learn about or refresh your knowledge on what to do if you encounter threatened or endangered species on your Michigan local-agency road projects.

All of your federal and state-funded transportation projects need to ensure protection of threatened and endangered species. During this webinar, the Michigan Department of Transportation will discuss the NEPA requirements for local projects as they relate to threatened and endangered species. Experts from the Michigan Department of Natural Resources and the US Fish and Wildlife Services will update attendees on the state threatened and endangered species evaluation process, the federal threatened and endangered species evaluation, and overview determination keys. Come get answers to your questions about threatened and endangered species encountered at your work sites.

PRESENTERS

Shaughn Galloway | Lane Masoud | Monica Uribe

MDOT Local Agency Program: Threatened & Endangered Species

WEBINAR: Thursday, May 27, 2021 — 9:00 AM - 10:30 AM ET

Presenters

Shaughn Galloway is a fish and wildlife biologist with the US Fish and Wildlife Service. He serves as the transportation liaison in the Michigan Ecological Services Field Office coordinating activities and providing technical support for local, state and federal transportation agencies throughout Michigan. Galloway holds a Bachelor of Science in Wildlife Ecology and Conservation from the University of Nevada – Reno and a Master of Science in Geographic Information Science and Technology from the University of Southern California.

Lane Masoud is the Local Agency Program coordinator for the Environmental Services Section (ESS) at the Michigan Department of Transportation. She ensures local agency transportation projects comply with the requirements of all applicable state and federal legislation related to the environment. Masoud holds a master's degree in Urban Planning from the University of Wisconsin – Milwaukee.

Monica Uribe is the project development engineer for the Rural, Local Bridge, and Transportation Alternative Programs (TAP) for Local Agency Programs. Her responsibilities include programming, funding, and environmental compliance to ensure the delivery of local projects. Uribe graduated from the Pontificia Universidad Javeriana in Bogota, Colombia, and holds a master's degree in Transportation Engineering from the University of Arkansas – Fayetteville.
