

Updated National Bridge Inspection Standards Overview and Q&A

Recent updates to the National Bridge Inspection Standards (NBIS) were announced May 6, 2022. Join MDOT for more details and how changes will affect you.

May 26, 2022
1:00 PM - 2:30 PM

This updates the existing NBIS relative to the National Bridge Inventory for the first time since 2009. The updated NBIS applies to all structures defined as highway bridges on all public roads, on and off Federal-aid highways, including tribally and federally owned bridges. In addition, the NBIS now applies to private bridges that are connected to a public road on each end.

The webinar will discuss changes that go into effect June 6, 2022 and provide an overview/timeline of changes that take place later. This will be followed by an opportunity to ask questions.

Please email any questions you may already have to: **MDOT-MiBRIDGE-Admin@michigan.gov**. Questions submitted ahead of time will be used to kick-off the Q&A session.

Registration*

No cost to attend, register online by May 25 at **<http://ctt.nonprofitsoapbox.com/2022nbis-may>**.

Presenters

Creightyn McMunn, PE, is the manager of the Michigan Department of Transportation (MDOT) Load Rating Unit, where her group is responsible for overseeing the load rating of all bridges in Michigan.

Allie Nadjarian, PE, is the Bridge Inspection Program Manager for the Michigan Department of Transportation (MDOT). She works with MDOT regions, local agencies, and bridge authorities to support their inspection responsibilities and ensure compliance with the National Bridge Inspection Standards and the Federal Highway Administration.

Brian Zakrzewski, PE, is the National Bridge Inventory (NBI) Program Manager for the Michigan Department of Transportation (MDOT). He is responsible for technical oversight and management of Michigan's National Bridge Inventory Program, including supervision of inspection, of load rating and inventory program managers, and of local-agency compliance.
