

Financial Analysis and Management for Wastewater (and Water) Utilities

ABOUT THIS TRAINING / EVENT

This class will teach attendees how to conduct financial analysis of their utility in the development of budgets and rates.

Objectives:

- Analyze revenue and expenses for budget development.
- Learn how to effectively develop water and wastewater rates.
- Calculate affordability metrics.
- Develop annual reserve fund contributions toward future projects and asset management replacement.
- Use financial ratios to track financial viability.
- Consider workforce and maintenance needs for budget development.
- Learn about resources and methods to predict future financial factors that can impact utility costs.
