

Building Better Gravel Roads

Optimization and Performance Standards

ABOUT THIS TRAINING

Dr. David Jones, University of California - Davis will present how to use performance-based specifications to reduce your maintenance costs and improve the performance of your gravel roads. He will discuss the small changes to your existing test methods that will give you the data you need to better understand and predict how your roads will perform and what you can do to improve that performance. You'll learn how to combat common performance problems like washboarding, raveling, eroding surfaces, and excessive dust. Web-based tools for blending gravel and chemical treatment selection will be demonstrated.

EVENT DETAILS

Date: April 1, 2025

Time: 1:00 PM - 3:00 PM (ET)

Cost: FREE

Registration Deadline: March 31, 2025

INTENDED AUDIENCE

- Local Agency Engineers
- Maintenance & Operations Supervisors
- Managers who would like to improve the performance of their gravel-surfaced roads
