Questions? Email ctt@mtu.edu
This training is for new LDC users, or for those needing a quick refresher. It is intended to be a quick-start session for using the LDC.

Topics Include:

- Connecting & configuring a GPS
- GPS recommendations
- Data Collection Cycle
- LDC settings
- Attaching documents
- Quick overview of the various LDC Modules: Sign, Culvert, Sidewalk, Guardrail, Point Pavement Marking, Linear Pavement Marking, Driveway, Drainage Structure, and Road

Instructors

Scott Bershing is a technical specialist with the CTT. Bershing rejoined the CTT in 2017 after previously working for the Tribal Technical Assistance Program and the Local Technical Assistance Program. He has worked as a technical communicator since 1995. Bershing holds a Bachelor of Science in Scientific and Technical Communication from Michigan Technological University.

Mary Crane is a senior software engineer who has been with the Center for Technology & Training since 2006. She has worked in computer programming since 1988. Her foci have been the Safety Module and the TAMC reporting processes. She also provides technical support, helps conduct Roadsoft trainings, and does technical support for the AASHTOWare BrR Bridge Load Rating software. Crane has a Bachelor of Science in Computer Science from Michigan Technological University.
