Instructor

Nancy Moore is a senior software engineer with Roadsoft and has been with the Center for Technology and Training since 2005. She was the lead developer on the new Traffic Signal Module, and has also worked on enhancing the traffic count, sign, guardrail, and safety modules. In addition, she has helped with the testing of major releases, code rewrites, training, tech support, and sign migrations. She has a Bachelor of Science in Computer Science from Michigan Technological University.

For fulfillment of Continuing Education requirements, all participants must be registered.

The Center for Technology & Training's continuing education policy is available here.
