

Using the Roadsoft Traffic Count Module

A Pragmatic Solution for Process Integration

Jason Lucier - Ionia County Road Commission

Presented By

- Jason Lucier, Ionia County
 Road Commission since 2000
- •IT Administrator
- Permit Agent
- Engineering

Data Collection and Entry

- •Traffic study counter placement
 - >7 days (48 hrs minimum)
- Log placement of counter
- Recover counter / information
- •Import information in Roadsoft

Traffic Count Log

Why use Roadsoft for Traffic Counts?

- Easier access current & historical data
 - ➤ Eliminate paper files or other electronic files

- Easier access current & historical data
 - ➤ Eliminate paper files or other electronic files
- Road prioritization
 - >to best select projects

- Easier access current & historical data
 - ► Eliminate paper files or other electronic files
- Road prioritization
 - >to best select projects
- Engineering
 - >cross section & pavement design

- Easier access current & historical data
 - ➤ Eliminate paper files or other electronic files
- Road prioritization
 - >to best select projects
- Engineering
 - >cross section & pavement design
- TCO'S
 - Traffic control orders, stop signs, speed limits, etc.

- Easier access current & historical data
 - Eliminate paper files or other electronic files
- Road prioritization
 - >to best select projects
- Engineering
 - >cross section & pavement design
- TCO'S
 - Traffic control orders, stop signs, speed limits, etc.
- Politics
 - Support maintenance & construction recommendations without subjectivity

- Easier access current & historical data
