Why Stakeholder Partnering for Local Public Agencies?

Because Local Agencies

- Own 75% of the Nation's 4 million miles of roads
- Own 51% of the Nation's bridges
- 20% of the Federal-Aid Highway Program Budget funds Local Projects (\$6 - \$8 billion per year)

Federal-aid Essentials for Local Public Agencies

What is Stakeholder Partnering?

A process where partnering occurs among **Federal, State and Local** agencies at the **programmatic level** to address **concerns and issues**, as well as **opportunities**, for process **improvements and streamlining**.

Key Elements

Why do we need Stakeholder Partnering?

LPA

- Reduce bureaucracy
- **Lower project cost**
- **Greater control over project schedules**
- Consistent interpretation requirements
- **Streamline project delivery**
- Reduced risk of non-compliance
- **Seat at table**

State

- **Launch program improvements**
- Reduce risk of non-compliance
- **Streamline project delivery**
- Consistent interpretation requirements
- **Limited staffing and resources**

FHWA

- **Launch program improvements**
- Consistent interpretation requirements
- **Reduce risk of non-compliance**
- Improve transparency
- **Streamline project delivery**
- Efficient use of resources
