Internship in Quality Assurance

Quality Assurance Analyst Intern

Quality assurance analyst will primarily serve as a test analyst and ticket producer. This vital role includes creating bug tickets as well as user interface recommendations and ideas, user experience recommendations and ideas, and feature concept and planning ideas.

Key responsibilities:
- User interface analysis and design
- User experience analysis and design
- Application suite, black box, and integration testing
- Brand experience
- Iconography maintenance and development

Additional responsibilities:
- Technical documentation
- CSS & HTML updates

All positions are paid. Year-round positions open with a minimum of 10 hours/week during the academic year and up to 40 hours/week during the summer.

How Can You Help Us?

CTT interns assume active roles on a variety of projects for our local-agency, state, and federal clients. Working at the CTT can provide an outstanding opportunity for interns to gain "real world" experience.

About the CTT

The Center for Technology & Training (CTT) is a research center housed in the Department of Civil and Environmental Engineering at Michigan Technological University and located in Dillman Hall. We are funded through several different state and federal programs. We build, maintain, and manage a number of projects including Michigan's Local Technical Assistance Program, Roadsoft, the Michigan Engineers' Resource Library, the Bridge Load Rating Program, and the Great Lakes Environmental Infrastructure Center.
