This annual conference provides owner agencies (state, local, municipal, or county), consultants, contractors, and others with information pertaining to the most current Michigan Department of Transportation (MDOT) specifications and policies for managing MDOT trunkline and MDOT Let local agency contracts.

Presenters from MDOT Construction Field Services, MDOT Local Agency Programs, the Center for Technology & Training, and other organizations will speak on a wide range of topics. These topics include contract compliance, prevailing wage, contract management computer programs, and technological advancements applicable to managing contracts.

The 2020 Contract Management Conference will be held in Mount Pleasant, Michigan.
