\$150.00

## EXPERIENCE THE LATEST IN DECORATIVE CONCRETE PROCEDURES

Decorative Concrete has become a normal part of Michigan concrete projects, but is still highly misunderstood by many people responsible for its final appearance. This new one day course is designed to educate specification writers, inspectors, architects and engineers from both public and private sectors.

Regardless of how long you have been in the industry, our staff will look to help you with time saving techniques, new and faster concrete coloring systems and a variety of interior and exterior sealer applications that can compliment your current knowledge and experience.

## LIVE DEMO'S SHOWING

- Proper placement methods and techniques
- Use of integral color and color hardener
- Options for powder and liquid release
- Post pour antiquing and staining
- Sealer applications and standards
- Minor defect repairs
- ADA Detectable Warning Tiles

## CLASSROOM TOPICS

- Detailed specifications
- Product substitutions and equals
- Proper expectations
- Contractor shortcuts
- Quality control
- Repair vs. replace

## THIS COURSE IS DESIGNED FOR:

FIELD INSPECTORS

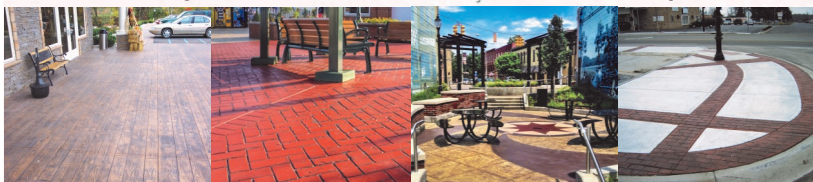

CIVIL ENGINEERS

D.O.T PERSONNEL

QUALITY CONTROL

ARCHITECTS

*Tuesday, March 31st - 8:30am - 4:00pm*
