

Roadsoft Pavement Management 3-Part Mini-Series

THURSDAYS 1:30 PM - 3:00 PM ET

SESSIONS

October 24 - Surface Types, Treatments, & Curve Definitions along with Data Cleanup:

A close look at the definition forms for surface types, treatment types, and curves. Learn how and when to create new surface sub-types and how to define treatments & costs for use in other Roadsoft tools.

Methods for examining and cleaning up your road-related data before trying to use the advanced Roadsoft tools. Learn how to use the Filter Builder, Multi-Edit, Small Segment Tool, and rebuilding Remaining Service Life.

October 31 - Strategy and Optimization Module:

These tools can help you to create, evaluate, and compare asset management plans for maintaining pavement assets. Learn how to create manual and optimized strategies.

November 7 - Project Planner and Project Module:

This tool can assist you with selecting project locations for multi-year plans based on condition ratings and expected deterioration. Learn how to implement a plan from a specific strategy or from a defined set of roads. Track road project details from planning to completion and integrate those details with other Roadsoft tools: Learn how to create projects directly from the map or from the PPST planner projects.

OUR INSTRUCTOR

Luke Peterson

DETAILS

Cost: \$45 per person

Time: 1:30 PM - 3:00 PM ET (each day)

Registration: Please register online by October 23, 2024.

Intended Audience:

- Those who are familiar with Roadsoft and are looking to learn more with an in-depth look at configuring the Road Module tools to help with better using the *Strategy & Optimization* and *Project Planning & Selection* tools.

Registration is required for fulfillment of continuing education. Read the Center for Technology & Training policy [here](#).

No-shows/cancellations within three business days of the event are charged the full registration fee; substitutions accepted
