

# 2026 Technology, Snow, and You!

## ABOUT THIS TRAINING

Of all the available technology, how do you know what is right for your operation? AVL has almost become a standard. Road weather information systems (RWIS) stations are popping up more frequently. Dashcams are being used to reduce liabilities. Telemetry is changing the way fleet departments process requests. How will your operators react to implementing dashcams and locations tracking? In this webinar, we will discuss the different options to collect and interpret data and how to better apply it to snowfighting as well as to the customer service side of your winter operations.

## DETAILS

**Date:** January 7, 2026

**Time:** 9:00 AM - 10:00 AM (ET)

**Cost:** FREE

To register, please visit our [registration page](#).

**Registration Deadline:** January 6, 2026

## INTENDED AUDIENCE

Supervisors

Operators

Managers

Foremen

Anyone who plows snow
