

Building a Strategic Framework for Michigan's Integrated Infrastructure Asset Management

## Strategic Planning Session 2018

- Continue tenants of program
- ✓ Revised TAMC Mission
- ✓ Reviewed pending legislation & impact to TAMC and partnering organizations
- ✓ Review efforts of Regional Asset Management Pilots
- Committee assignments of action items

2017 – 2019 TAMC Work Program Update

House Bills 5335, 5406 & 5408

## Mission Statement

To develop and support excellence in managing Michigan's Transportation assets by:

- Advising the Legislature, State Transportation Commission (STC), Michigan Infrastructure Council (MIC), and Transportation Committees.
- 2. Promoting Asset Management Principles.
- Providing tools and practices for road agencies.
- 4. Collaborate and coordinate with Water Asset Management Council (WAMC) and other asset owners.

#### Building the Foundation for Statewide Integrated Asset Management

Michigan Infrastructure Council (Treasury)

Transportation Asset

Management Council
(MI Department of Transportation)

Water Asset Management
Council

(MI Department of Environmental Quality)

- P.A. 323 of 2018 creates the Michigan Infrastructure Council (MIC)
- P.A. 324 of 2018 creates the Water Asset Management Council (WAMC)
- P.A. 325 of 2018 realigns the Transportation Asset Management Council (TAMC) under MIC

## House Bills Turn into Law

#### Public Act 323 of 2018

- Creates Michigan Infrastructure Council (MIC)
- Statewide Asset Management Database
- 30-year Infrastructure Investment Strategy

#### Public Act 324 of 2018

- Creates Water Asset Management Council (WAMC)
- Develop template for Water Asset Management Plans (WAMP) by October 2019

#### House Bills Turn into Law

#### Public Act 325 of 2018

- Amends Act 51 TAMC under MIC
- Adds asset classes of culverts and signals
- Defines elements of Transportation Asset Management Plans (TAMP)
- TAMC to Develop template for TAMP by October 2019
- Schedule for largest road agencies by October 2019

The Michigan Infrastructure Council

Define a vision for Michigan's infrastructure that provides the foundation for public and environmental health, economic prosperity and quality of life

# Michigan Infrastructure Council Goals and Activities

#### Collaborate

Facilitate a coordinated, holistic approach that optimizes the contributions of all who manage and use Michigan's infrastructure

- Conduct Regional Summits
- Launch Cross-Asset Portal
- Lead Efforts to become a Trusted Resource

#### Coordinate

Enhance the alignment of projects and programs to ensure that Michigan's infrastructure is effectively and efficiently operated, maintained and constructed

- Work Toward Funding Alignment
- Standardize Regulatory Requirements
- Leverage Subject Matter Experts to Implement Best Practices

#### **Prioritize**

Establish and document the condition of Michigan's infrastructure to identify the needs of greatest priority

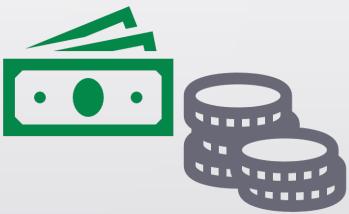

- Create Common Definitions and Standards
- Evaluate Regional Variations
- Develop Decision Guides for Local Leaders

#### Invest

Determine, recommend and promote adequate funding for Michigan's infrastructure and promote effective and efficient investments to achieve maximum benefit

- Support Bold and Creative Funding Strategies
- Work Toward Funding Alignment
- Develop Budget and Funding Recommendations

#### **Educate**

Provide accurate and trusted information to support effective infrastructure decisions

- Establish Performance Metrics and Target Goals
- Create a Common "Glossary" Across Assets
- Build and Maintain Infrastructure Dashboard

# Hang On... Help is on the Way

#### TAMC Letter to Act 51

# Public Act 325 of 2018 – TAMC Action Items

- Letter 9/12/18 Distributed to Act 51 Agencies & TAMC Partner Agencies (CRA/MML/MAR/MTPA)
- Defines "Who" & "What"
- Provides Guidance to the "Who"
- Provides a Status of Progress Towards the "What"

RE: Public Act 325 of 2018

Dear Local Road Agencies Partners,

On behalf of the Michigan Transportation Asset Management Council (TAMC) we want to provide an update on Public Acts (PA) 323, 324, and primarily 325, which were enacted in July 2018.

These laws established two new councils: the Michigan Infrastructure Council (MIC) and the Water Asset Management Council (WAMC). PA 325 also modified the scope of the TAMC. Together these support the 2016 recommendations of the 21° Century Infrastructure Commission and the Asset Management Infrastructure Pilots in an effort to coordinate across all types of infrastructure assets. Both the TAMC and WAMC will now report to the MIC.

The MIC is housed in the Michigan Department of Treasury, and its efforts will be facilitated by its new Executive Director, Jessica Moy. That group's first meeting was September 6<sup>th</sup>, and future monthly meetings are expected. The MIC also has a website under construction. Find out more about their efforts, visit the MIC overview page.

The WAMC is established under the Michigan Department of Environmental Quality (MDEQ). The WAMC is intended to mirror for water and sewer infrastructure the efforts accomplished over the past 15 years by the TAMC.

The TAMC scope was modified including requirements to address asset management plans for local road agencies. No later than October 1, 2019, the TAMC shall develop a template for an asset management plan for use by local road agencies responsible for 100 or more certified miles of road and require it submission to the TAMC. No later than October 1, 2019, the TAMC shall establish a schedule for the submission of asset management plans by local road agencies that ensures that 1/3 of these local road agencies submit an asset management plan by local road agencies comment to the tampet of the submission of selections of the tampet of tampet of the tampet of the tampet of the tampet of ta

#### Local Road Agencies responsible for less than 100 certified miles

For local road agencies responsible for less than 100 certified miles of road, these modifications will not have significant impact. Your work with regional and metropolitan planning agencies to collect road and bridge condition data will continue. Your work to report investment activities through the Investment Reporting Tool (IRT) and Act 51 Distribution and Reporting System (ADARS) will also continue. The TAMC will continue to provide training and assist you in your asset management efforts. Please continue

RE: Public Act 325 of 2018

Dear Local Road Agencies Partners,

On behalf of the Michigan Transportation Asset Management Council (TAMC) we want to provide an update on Public Acts (PA) 323, 324, and primarily 325, which were enacted in July 2018.

These laws established two new councils: the Michigan Infrastructure Council (MIC) and the Water Asset Management Council (WAMC). PA 325 also modified the scope of the TAMC. Together these support the 2016 recommendations of the 21° Century Infrastructure Commission and the Asset Management Infrastructure Pilots in an effort to coordinate across all types of infrastructure assets. Both the TAMC and WAMC will now report to the MIC.

The MIC is housed in the Michigan Department of Treasury, and its efforts will be facilitated by its new Executive Director, Jessica Moy. That group's first meeting was September 6<sup>th</sup>, and future monthly meetings are expected. The MIC also has a website under construction. Find out more about their efforts, visit the MIC overview page.

The WAMC is established under the Michigan Department of Environmental Quality (MDEQ). The WAMC is intended to mirror for water and sewer infrastructure the efforts accomplished over the past 15 years by the TAMC.

The TAMC scope was modified including requirements to address asset management plans for local road agencies. No later than October 1, 2019, the TAMC shall develop a template for an asset management plan for use by local road agencies responsible for 100 or more certified miles of road and require it submission to the TAMC. No later than October 1, 2019, the TAMC shall establish a schedule for the submission of asset management plans by local road agencies that ensures that 1/3 of these local road agencies submit an asset management plan by local road agencies customit an asset management plan each year. The TAMC is currently working on establishing the submission schedule and is seeking feedback from member agencies.

#### Local Road Agencies responsible for less than 100 certified miles

For local road agencies responsible for less than 100 certified miles of road, these modifications will not have significant impact. Your work with regional and methopolitan planning agencies to collect road and bridge condition data will continue. Your work to report investment activities through the linvestment Reporting Tool (IRT) and Act 51 Distribution and Reporting System (ADARS) will also continue. The TAMK will continue to provide training and assist you in your asset management efforts. Please continue

Public Act 51 Agencies (Address from ADARS Contact list)

RE: Public Act 325 of 2018 Asset Management Plan Schedule

Dear Local Road Agency Partners,

On behalf of the Michigan Transportation Asset Management Council (TAMC) we want to provide you another update on Public Act (PA) 325, which was enacted in July 2018. Previously you received a letter sharing information and timelines related to Transportation Asset Management Plans (TAMPs).

PA 325 modifies TAMC's program to include requirements for asset management plans from local road agencies. No later than October 1, 2019, the TAMC shall develop a template for an asset management plan for use by local road agencies responsible for 100 or more certified miles of road and require its submission to the TAMC. No later than October 1, 2019, the TAMC shall establish a schedule for the submission of asset management plans by local road agencies that ensures that 1/3 of these local road agencies submit an asset management plan each year. As we previously shared, the TAMC was working on establishing the submission schedule and has sought feedback from member agencies.

#### TAMC TAMP Submission Schedule

We are now pleased to share that at its November 7, 2018 TAMC meeting, the TAMC determined the following schedule for TAMP submittals. It was important we provide this information as soon as possible for local agency planning and support. Please note, local road agencies can volunteer to advance to an earlier year, however cannot delay to a later year. Also note, the Michigan Department of Transportation (MDOT) is not listed in this schedule as the Federal Highway Administration provides oversight of TAMPs coming from state transportation departments, therefore MDOT is not subject to this PA 325 requirement. Lastly, if your agency is not listed on this schedule, your agency is not required to submit a TAMP under this legislation. However, TAMC does encourage all road agencies to utilize our training programs, plan templates and processes to assist you in management of your road system.

## So, What's New with TAMC?

- Michigan's 2018 Roads & Bridges Annual Report – by May 2nd
- 2. Strategic Planning Session June 5, 2019
- 3. MIC, WAMC Coordination
- 4. Culverts/Traffic Signals
- Local Pavement Warranty Program
  - Reporting
- 6. PASER Certification Policy

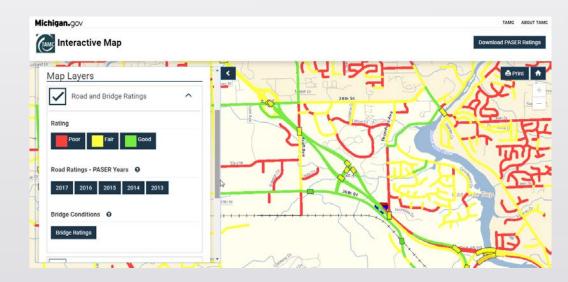

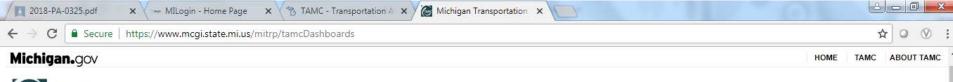

## TAMC Dashboards & Interactive Map

- Assists with Local Agency Compliance of Public Acts 506 of 2012 and 301 of 2014
- Both Technologies Overhauled in 2017-2018
- TAMC Dashboards
  - ✓ Pavement
  - ✓ Bridge
  - ✓ Traffic
  - ✓ Safety
  - ✓ Maintenance
  - ✓ Finance

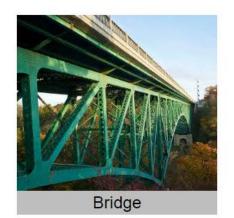

### **Dashboards**

The dashboards depicted below show the condition, operation, and investment in Michigan's public road system. Pavement condition information is based on paved surface ratings for state highways as well as roads under the jurisdiction of Michigan's counties, cities and villages. Statewide there are over 10,000 public road bridges. Bridge conditions are based on bi-annual inspections of state, county, city and village owned bridges. The number of traffic accidents is a measure of how effectively the road system is performing. Maintenance is required to keep roads and bridges performing as intended. These activities include: snow removal, patching, grading, and mowing. Capital investments are necessary to extend the useful life of any asset including roads and bridges. The financial pie charts illustrate how investments in the road and bridge system are made.
